

ARCTIC IMPORT

ABOUT US

Arctic Import is a family-owned company with deep roots in the North Atlantic. Since 1978, the company has built a strong position as a B2B wholesaler in the region.

The company operates in Greenland, the Faroe Islands and Iceland as a specialised trading partner for both public and private customers. Our extensive product range includes all food products as well as retail and non-food items for businesses in sectors such as hospitality, construction, healthcare and public organisations.

With more than 45 years of experience, a wholesale warehouse in Nuuk, and offices across several Nordic locations, Arctic Import ensures efficient logistics and stable supply chains throughout the North Atlantic – even to remote areas.

North Atlantic tradesmanship

Honesty and integrity are at the core of everything we do. We believe in good, old-fashioned trading

OUR LOCATIONS

principles and in building long-term partnerships with our customers. A deal is only truly good when it is sound business for both parties, forming the foundation for cooperation that lasts. We excel in what we call *North Atlantic tradesmanship* and have a deep understanding of the unique geographical conditions and logistical challenges of the region. This enables us to ensure that you always receive the right goods at the right time.

Social anchoring

Trade has brought people together since the dawn of time. At Arctic Import, we understand the importance of delivering goods from the Arctic coast in the north to the Faroe Islands in the south.

It is natural for us to take responsibility for the development we are part of. We therefore engage actively in the communities we work with. We create jobs for young people, invest in the training and development of our employees, and support worthwhile local initiatives.

We are aware of our role in the local community and strive to make a genuine difference through our work, our collaborations and our actions.

Communities in motion

We are part of the communities we trade with, and we believe that trade and development go hand in hand.

Our goal is to contribute to positive social and economic development whenever we enter into a partnership. Together, we move ourselves and one another forward as people and as trading partners.

One supplier – less administration

Arctic Import is a well-established partner in the North Atlantic, offering solutions across the entire value chain – from consultancy and procurement to packing, customs, duties, and delivery.

We excel in logistics. Through close cooperation with leading suppliers and experienced logistics and transport partners, we ensure a wide product range, competitive pricing and a high level of delivery reliability.

By consolidating your purchases with us, the procurement process becomes simpler. You benefit from fewer administrative tasks and save both time and costs.

Our sales consultants are always available to ensure a smooth and efficient day-to-day operation for your business.

OUR CONCEPTS

We are present where everyday life unfolds. Where meals are shared, spaces are furnished, and daily operations must function smoothly.

We supply products across ALL categories, and we go to great lengths to accommodate your needs.

Through our three primary concepts: Catering, Living and Cleaning – Arctic Import delivers integrated solutions to businesses and institutions across the North Atlantic, based on specialist expertise, consultancy and operational reliability. Solutions that make everyday life simpler, more functional and more comfortable – wherever you are based.

CATERING

We provide for everyday meals, special occasions and all the moments when guests gather around a table. What truly brings people together is the food – and that is why we supply everything needed for the meal, from what goes on the plate to the kitchen where it is prepared. Wherever you are in the North Atlantic, we take pride in being your full-service catering supplier across the region.

LIVING

When you are planning to build or furnish offices, institutions, restaurants, hotels or other commercial and service environments, Arctic Import can provide the right guidance and consultancy to bring your visions to life and create spaces that support the life they are meant to host. Creating interior solutions that facilitate interaction between people requires overview and specialised insight.

CLEANING

From specialised cleaning solutions to everyday necessities in institutions or office environments, Arctic Import offers specialist expertise in cleaning and hygiene. Cleaning is often more complex than many assume and requires unique insight into regulatory requirements, certifications and day-to-day practical operations. That is why Arctic Import is ready to provide advice and guidance that make your everyday operations simpler and cleaner.

Customer service

Delivery reliability is a given at Arctic Import. With dedicated sales consultants and well-equipped warehousing facilities, we ensure that agreed products are always in stock and can be delivered quickly.

Our customer service team is ready to answer questions and handle orders. Sales consultants visit customers at intervals that match your

needs and are always available when advice, support or adjustments are required.

New headquarters and logistics centre in Nuuk

Arctic Import is constructing a new, modern headquarters in Nuuk, bringing offices, warehouse and logistics together at a single address. The new head office will have a total area of 1,700 m², and the warehouse facilities will provide 1,400 pallet spaces – 600 for frozen goods and 800 for dry goods – including a number of robot-controlled pallet locations. The construction project is a strategic investment in Greenland and is expected to be completed at the end of 2026.

Fast delivery throughout Greenland

With the new logistics centre, even more goods from Denmark can be consolidated in one location before being distributed across Greenland. This allows for faster delivery times, smoother coordination, and a more resilient supply chain for both public and private customers.

Webshop

Arctic Import offers a webshop where customers can quickly and easily order the required products. Agreed products will always be available in the webshop, allowing your employees to place orders directly whenever it suits them best.

We offer free guidance and training to help your team start strong.
