

# ABOUT US

**EMJ-ATCON Greenland A/S** is a general contracting company with strong roots from all over the country and many years of experience with construction and engineering in Arctic conditions. The company was established in 2013 as the result of a merger between EMJ (founded in 1992) and ATCON (with roots dating back to the 1970s).

The ownership group is currently 5 people, with different skills within construction, finance, strategy, construction and construction management.

Today, we are headquartered in Nuuk and employ around 70 employees, who contribute every day to responsible construction – built by people.

**“Responsible construction  
– quality built by people”**

We carry out projects of all sizes and types of contracts for both private and public clients. With more than **50 years of experience throughout Greenland**, we have built a deep understanding of the special requirements that climate, logistics and safety place on construction.

For us, the climate is not an excuse for irregularities or delays – it is a condition that we plan for. Thorough preparation, high safety and the ability to anticipate challenges are a natural part of our approach. For us, construction in Greenland is not just a job, but a way of life.

## OUR MISSION

**For building users, we will build quality buildings under the highest possible climate and safety standards.**

Our projects are built by people with **pride, joy** and **strength for development**. This applies to planning, execution and collaboration – internally as well as with clients and partners.

## OUR VISION

Our vision is to be the **beacon within construction management, quality and safety in Greenland** and to be **the preferred general contractor within new construction and renovation.**

This is a commitment – and it means that we are constantly working on development, new materials, methods and solutions that are adapted to Greenlandic conditions and future requirements.

## OUR EXPERIENCE

**WE OFFER A WIDE RANGE OF CONTRACTS, INCLUDING:**

- Residential construction
- Commercial halls and warehouses
- Office and sales facilities
- Hotel construction
- Port construction
- Demolition and renovation

## OUR VALUES

### – HOW WE WORK TOGETHER

At EMJ-ATCON, community and cooperation are the foundation of our daily operations. We believe that the best results are created in a trusting community, where responsibility, respect and openness go hand in hand.

### THE CONSTRUCTIVE COLLEAGUE AT OUR COMPANY IS:

- **Responsible** – takes ownership, speaks up when safety requires it, and goes the extra mile when necessary
- **Curious** – open to new methods, materials and learning
- **Honest** – owns up to mistakes and contributes constructively to solutions
- **Helpful** – supports colleagues and contributes to community and job satisfaction
- **Listening** – makes room for others' opinions and is present in the dialogue

These values permeate the entire organization and are crucial for both the quality of our work and the strength of our collaborations.
